
How to find UI designers with Boolean search strings

Use Boolean search on Google to hire [UI Designers](#) who can build attractive user interfaces. Modify our Boolean search string examples to meet your needs and find resumes and profiles of professionals for your roles.

Generic search string to find UI Designers

Build a basic search command around terms like:

- -job -jobs -sample -examples, to exclude irrelevant results
- (intitle:resume OR intitle:cv) to discover candidates' online resumes or CVs
- ("UI designer" OR "user interface designer") to cover variations of the same job title

Here's an example of a Boolean search string for UI designers resumes:

(intitle:resume OR intitle:cv) ("UI designer" OR "user interface designer") -job -jobs -sample -templates

With this search string, the words "resume" or "CV" have to appear in the page title. Excluding more terms will reduce false positives.

Search for profiles and portfolios of UI Designers

Find profiles of UI Designers on social networks [using Boolean search in Google](#). Include the site: operator and terms found exclusively on member profiles. For example:

- *site:dribbble.com "UI designer" "shots" -jobs*
- *site:meetup.com "UI designer" "member since"*
- *site:behance.net "UI designer" "project views" chicago*

Add more criteria to your Boolean strings for UI designers to find profiles that better match your requirements.

When sourcing EU candidates, please refer to guidance on [using social media for recruiting](#)

and [collecting candidate information](#) as per the *General Data Protection Regulation, or GDPR*.
