## Junior Accountant interview questions and answers

These **Junior Accountant** interview questions can help you hire a qualified candidate. Adjust them to suit your needs and requirements.

### Junior Accountant Interview Questions

Junior accountants perform basic accounting and financial tasks under supervision of senior accountants. A degree in accounting is essential. Since it's an entry-level position, they typically won't have more than five years of experience. You can screen for candidates who have completed internships or have gained some work experience at a company or department similar to what you are hiring for.

During the interview, try to focus on how their education or previous job has prepared them for this role. What they lack in experience, they should make up for in competence and passion to learn. You can ask about important concepts and basic accounting procedures but try to focus on actual skills.

The candidate you'll end up hiring should have an analytical mind and aptitude in math. You should also value great organizational ability and attention to detail. It's a good idea to look for ease in using computer programs, particularly Excel, and treat knowledge of an accounting software as a big plus.
