

How to find Physical Therapists with Boolean search strings

Use Boolean logic on Google when recruiting [Physical Therapists](#) to find resumes and profiles. Our search strings examples provide a basis to build your own commands. Modify our examples to include the training and experience you need in your physical therapy clinic.

Generic search string to find Physical Therapists

Build search according to your needs:

- *-job -jobs -sample -examples*, to avoid irrelevant results
- *intitle:* operator, to include the word “resume” or “CV” in the page title
- (“physical therapist” OR physiotherapist), to cover variations of similar job titles

Here’s an example of a generic search string that you can further modify to find resumes:

(intitle:resume OR inurl:resume) (“physical therapist” OR physiotherapist) -job -jobs -sample -examples

You can also use the *inurl:* operator get results that contain these words in the page url:

(inurl:resume OR inurl:cv) (“physical therapist” OR physiotherapist) -job -jobs -sample -examples

Adding variations of job titles will provide more relevant results. And, excluding more terms will reduce false positives.

Searching for Physical Therapist profiles

Find Physical Therapists by looking through social networks and forums on Google. Use the *site:* operator and terms found exclusively on member profiles. For example:

- *site:meetup.com “physical therapist” “member since”*

Add more criteria in your search to find profiles that better match your requirements.

When sourcing EU candidates, please refer to guidance on [using social media for recruiting](#)

and [collecting candidate information](#) as per the *General Data Protection Regulation, or GDPR*.
